

Virtu(a)lOso

GLOBAL PIANO COMPETITION
FOR ARTIST RELIEF

July 30 - August 9, 2020

STEINWAY & SONS

ARTISTIC PARTNER

Health and Safety Guidelines

We are working closely with Steinway to comply with national and local health and safety guidelines in all five locations throughout the recording process.

Here are some of the precautions that we will be taking:

- All galleries will be closed to the public during the recording process. Only contestants, administrators, recording engineers and cleaning staff will be allowed.
- Contestants are assigned designated times for check-in, warm-up, and recording. These are structured to ensure as little overlap as possible between contestants to avoid congregating groups of people.
- Contestants will be asked to fill out a health questionnaire and will be subject to a temperature scan upon arrival.
- All involved people will be required to wear masks. Pianists can remove their masks only during the recording.
- There will be ten minutes in between each contestant in order to properly disinfect piano keys. Cleaning staff will be on-site all day to frequently clean shared spaces.
